

# TRANSPORTER

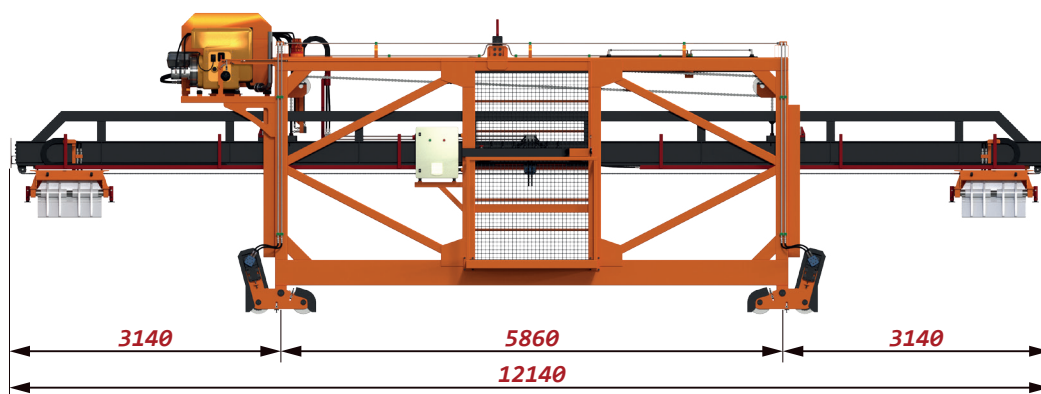

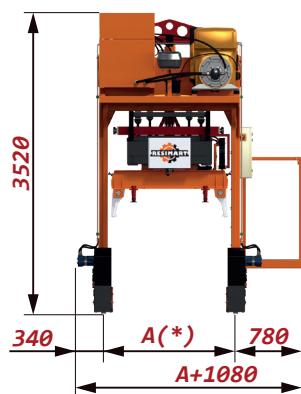

<b>Weight</b>	8000 kg
<b>Total Power</b>	26 KW
<b>Load Capacity</b>	Up to 20T
<b>Clamps Length</b>	Up to 18 m
<b>Lifting Height</b>	1600 mm
<b>Traslation Speed</b>	100 m/min

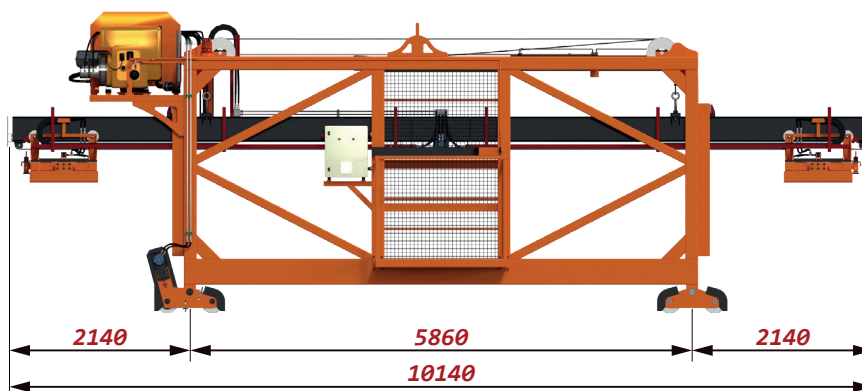

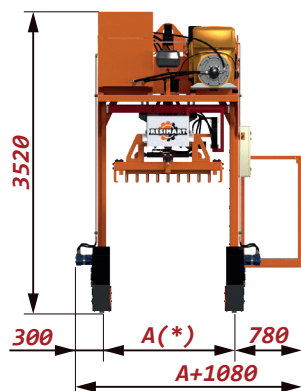

**Machine to extract prestressed precast concrete products once manufactured, simplifying the process, improving safety and optimizing working times.**

- Resimart© Transporter Machine, in its standard version, allows the handling of up to 10 TM weight and 18 m length concrete products. Versions for up to 20 TM can be provided according to specific client's requirements.
- It allows the stacking of manufactured products.
- Hydraulically driven lifting frame, with a safety device that prevents the fall of the product.
- The position of the clamps inside the lifting frame can be hydraulically adjusted to handle all product lengths.
- Optionally, it can be provided so as to lift and carry previously stacked by itself packages.
- Can be equipped with a wireless control console, thus increasing immensely both its safety and its functionality.
- It's the best alternative to avoid known bottlenecks caused by the workload of the gantry crane.

20 T - 18 m

10 T - 14 m
